

SETTING UP YOUR FILTERED PANEL SHROUD

Your Filtered Panel Shroud can be used with any of the Negative Air Systems models: Zephyr, Tempest, or Cyclone.

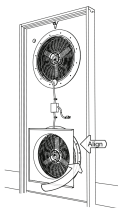

STEP 1

Unplug your unit.

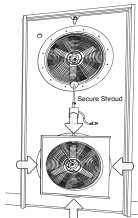

STEP 2

With the slot for the filter facing either up, left, or right (NOT DOWN), place the round flange of the Filtered Panel Shroud firmly against the Blue HDPE Collar on your Zephyr, Tempest, or Cyclone.

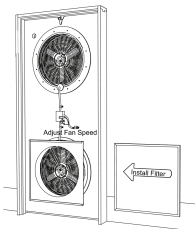

STEP 3

Rotate as needed to align the Rubber Grommets with the Brass Rivet Inserts.

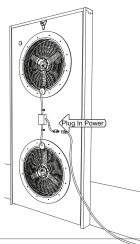

STEP 4

Secure your Filtered Panel Shroud with the four (4) Knurled Knobs provided.

STEP 5

Adjust fan speed to the desired setting and insert filter.

STEP 6

Plug it in. Remember, the fan motors are in the “on” position.
